**Position: Research Associate, Biostatistics**

Department/Business Unit: Department of Biostatistics and Scientific Advisory Group

The Department of Biostatistics and Scientific Advisory Group is looking for a Research Associate. His/her tasks will be to write scientific manuscripts, reports and abstracts, and making posters for presentations.

Essential Functions:

The following duties represent the principle job duties; however, they are not all inclusive:

- Search literature, critically evaluating and interpreting it
- Compile, write and present reports and scientific papers
- Communicate with academic and industry partners
- Ensure adherence to Quality Assurance processes

Skills and Qualifications:

Knowledge of:

- The CRO & Health Sciences industries
- Knowledge of commercial statistical software is an asset

**Ability to:**

- Comply with timelines
- Assume multiple and concurrent tasks and responsibilities
- Work both independently and as an effective team member
- Provide attention to details
- Communicate effectively orally and in writing

Experience and Education:

The candidate should possess:

- B.Sc. in Life Science
- Relevant work experience with epidemiological research and/or clinical research, especially in the report of study results and scientific writing

**JSS Medical Research is:**

- A young and dynamic Clinical Research Organization
- A group of 50 dedicated professionals
- A scientific team with extensive academic affiliations
- A proven track record in health research since the 1980s

**JSS Medical Research offers the following services:**

- Design, Execution, Monitoring & Data Analysis of Clinical Trials (Phase I-IV)
- Retrospective and Prospective Post-Marketing Studies
- Physician and Population Surveys, Health Economic Analysis
- Risk-Benefits and Risk Management Evaluations
- Pharmacoepidemiology & Pharmacoeconomic Studies
- Preparation of peer-reviewed publications and conference presentations
- Integration of findings into marketing strategies

**To apply:**
