

Job Title: Research Associate Biostatistics

Posting Date: 22 November 2011

Type: Full-Time / Permanent

JSS Medical Research Inc. in St-Laurent is seeking a candidate for a full-time position of Research Associate Biostatistics. Under the general supervision of the Scientific Department, the candidate will perform tasks related to the design, analysis and interpretation of clinical trials and research projects using SAS.

Key responsibilities:

- Perform statistical analyses using SAS
- Conduct / Assist in sample size calculations and the development of study specific randomization schedules
- Prepare / Review study related documents such as:
 - Study Protocol
 - Statistical Analysis Plan
 - Data Analysis reports
- Offer support on statistical issues
- Transfers study related data from client databases and/or in-house developed databases into statistical analysis software

Skills / Qualifications:

- A minimum of a Master's degree in Mathematics, Statistics, or Biostatistics. A Master's degree in Epidemiology can be considered.
- Advanced experience with SAS and SAS programming is absolutely required.
- Experience with statistical analyses and clinical research is required.
- Experience with other commercial statistical software (e.g. SPSS, Stata, R) is desired.

About JSS Medical Research Inc.

Founded in 1997, JSS Medical Research Inc. is a Clinical Contract Research Organization that conducts Phase II to Phase IV clinical trials on behalf of pharmaceutical, biotech and nutraceutical companies. The organization responds to the evolving needs of the health stakeholders for high quality, scientifically rigorous and sound clinical research services.

To apply:

Qualified candidates are invited to submit their CV with a Cover Letter to: employment@jssresearch.com. Please quote the name of the position. Only the candidates who meet our job requirements will be contacted for an interview.
